About Me

I am an aspiring Front-End Web Developer with a strong passion for web development. Having acquired fundamental skills in HTML, CSS, and JavaScript. I continuously seek to improve through hands-on training and real-world projects. My experience as a Freelancer has allowed me to enhance website performance, optimize mobile responsiveness, and significantly boost SEO visibility. I am also skilled in effective communication and client support. My ability to solve problems, work under pressure, and lead projects to success reflects my commitment to continuous learning and growth in the field of web development.

- issues or concerns quickly and professionally. Enhanced mobile responsiveness for better user access across various devices

Education

Undergraduate Student: Port Said University
Management Technology And Information Systems

Certification

- **Front-end**

  Information Technology Institute - ITI Suez Canal Branch

  I completed an intensive training in Front-End Development through a certified course by the Information Technology Institute (ITI) in collaboration with Suez Canal University. The course covered both fundamental and advanced aspects of website and application development, including HTML, CSS, and JavaScript. It also emphasized improving user experience (UX) and designing interactive interfaces following best industry practices. I eamed a certificate accredited by the Ministry of Communications and Information Technology upon successfully completing the course.
